3-6 PM

ONLINE: ZOOM EVENTS

Feed Success is Project Infinity's signature event for National Hunger and Homeless Awareness Week; where we spotlight the importance of nourishing young minds and feeding the needs of the entire family.

The online event gives food and/or housing insecure families, 1-click access to a network of coordinated resources and services—all aimed at improving academic outcomes for hungry and homeless students.

We need your help to Feed Success. Partner with Project Infinity to connect these families to critical community resources, advocates, service providers and employment opportunities—all with a single click, from any location, on any device.
